### RACING DRIVER AND MECHANIC FATALITY HURT

Alton Soules, Harry Barner Receive Fatal Injuries As Car Wrecked

FRESNO, Cal., Oct. 1.—Alton Soules automobile race driver who was injured when his car threw a tire and shot through the fence on the Fresno Speedway here today, in the San Joaquin Valley Classic race, died at a hospital here shortly after 8 o'clock tonight. His mechanic, Harry Barner, is fatally injured, according to Dr. W. L. Adams.

Harry Barner, Soules' mechanic, died tonight of injuries received at the same time. It developed tonight that Soules' spine had been fractured, a fact not brought out at earlier examinations. He suffered numerous other injuries. Barner's chest was crushed and he was injured otherwise.

The cause of the accident may never be known. Mrs. Barner said Soules told her his car struck a hole in the board track, which threw him off his course. Officials of the speedway visited that section of the track and said marks made by Soules' car indicated he had not driven into a hole they found there.

They voiced the opinion that some mechanical trouble had caused the wreck. It had been reported at first that it was caused by a thrown tire.

Agriculture and Livestock Benefitting by Credits Extended by Nation

### HUGE LOAN APPROVED

15 Millions to be Advanced Ranchers in Northwest; Cattlemen Advised

WASHINGTON, Oct. 1.—Important results are being obtained from the agricultural credit arrangement made possible by the extended powers of the war finance corporation, Eugene Meyer, managing director of the corporation, said today upon his return from a three weeks' tour which took him to the west coast.

Director Meyer said he was convinced that the agricultural industry, particularly that of livestock, had suffered from lack of adequate financing and felt certain that the government credit now available would establish the needed financial backing. It would act basically, according to the corporation head, to save the breeding and feeding herds of the nation.

Meyer said he found agricultural conditions far from satisfactory but added that he had spread generally the advice to begin the buying and feeding of cattle. Banks appear ready to begin the need financing with the help of the corporation, he said.

### VENIRE IS EXHAUSTED

Trial Again is Delayed by Inability to Secure 12 Qualified Jurors

TWIN FALLS, Ida., Oct. 1.—A new witness in the case of the state against Lydia Meyer Southard, charged with the murder of her fourth husband, Edward P. Meyer, now on trial here in district court, is sought by Prosecutor Frank Stephan, a friend of the defendant prior to her marriage to Meyer.

Thornberg was a resident of Twin Falls for about a year, coming here in the early spring of last year. Although a young man, he was a veteran of the world war. He was employed at newspaper work in Twin Falls.

Talked of Marriage  
While Prosecutor Stephan has dropped no hint of the purpose for which he expects to use Thornberg, the statement is made by friends of the young man that he became acquainted with the woman during the time she was employed as cashier in a Twin Falls restaurant where Thornberg took his meals, that the two became friendly and that Thornberg talked freely of his desire to marry her.

Thornberg carried a government life insurance policy of \$10,000. At this time, Mrs. Southard was known as Mrs. McHaffie, although her name was properly Mrs. Harland C. Lewis. Lewis was married to the defendant at Denver, March 19, 1919, and died at Billings, Mont., July 6, of the same year, the cause of death being given as gastro enteritis. Lewis carried a life insurance policy of \$5,000, which was collected by the widow.

Prosecutor Stephan has stated that an autopsy revealed the presence of poison in the body of Lewis and that he is in possession of evidence to this effect.

### Venue Is Exhausted

The present whereabouts of Thornberg are unknown. He is supposed to have gone from Twin Falls to Pullman, Wash., for vocational training at the Washington State University, leaving there some time ago.

Today's session in district court came to an end when the special venire of 40 men was exhausted under the examination by prosecution and defense and a further special venire was ordered for presentation in court on Monday.

Eleven men were in the jury box when court adjourned for the day.

### LEAGUE HOPES FOR REDUCTION OF ARMAMENTS

GENEVA, Oct. 1.—(By the Associated Press.)—Disappointment at the absence of results attained by the League of Nations since the last assembly and hope in the forthcoming Washington conference, were the two principal sentiments expressed in today's debate by the assembly on disarmament. Many seats were empty on the floor of the assembly, the question having been fully threshed out in committee.

The assembly, however, was aroused to considerable enthusiasm, particularly by the eloquent defense of M. Noblemaire of France, against accusations of militarism brought against his country. Lord Robert Cecil, who presented the committee's report on disarmament, said he hoped the Washington conference would do something for the control of private manufacture and traffic in arms.

Captain Melbourne Bruce, of Australia, who followed Lord Robert, said it was a matter of as much interest to Europe as to Australia if his country were obliged to go on arming, following the example of the Asiatic countries, in order to protect its 12,000 miles of seacoast.

"We can do it," he said. "We have shown we could do it during the war. However, we have great hopes the Washington conference will make it unnecessary for us to do so. But if the Washington conference draws up concrete plans, we are ready to respond. A year ago the assembly expressed the same wish, and the year which has just passed has been wasted."

Lord Robert then said: "If we can find out just what appropriations for armaments are required to keep order in the interior of countries and to protect treaties, then we can find out how much is needed to satisfy the hatred among nations."

### Senator Charges Labor Largely Responsible For Unemployment

WASHINGTON, Oct. 1.—An attack on union labor by Senator Nelson, Republican of Minnesota, and a successful fight against a committee amendment which, it is claimed, would discriminate against American ships in favor of foreign craft, marked Senate consideration today of the Republican tax revision bill.

Senator Nelson declared that the workmen themselves were responsible for most of the unemployment because they would not consent to a readjustment of wages. To the railroad workers, he attributed part of the responsibility for present high freight rates, asserting that until there was a reduction in the high wages and bonuses allowed, the people could not hope to get cheaper transportation.

Referring to the threatened strike of railroad workers, the Minnesota senator said he was getting tired of threats to tie up the transportation systems and thought there should be a showdown.

"Let the people understand once for all what these men mean by threatening to strike," said Senator Nelson. "Let them understand that it means the stopping of food supplies and other essentials, want and starvation in our cities and towns, and I venture the prediction that the American people will rise in their might and wipe these men from the face of the earth."
